### Multi-clamp, St/tZn, Ø 8-10 mm

Original-Multi-clamp according to DIN EN 62561-1 for the universal use as T-, cross-, parallel-clamp and joint-connector.

Material of clamp:	St/tZn
Fit:	Ø 8-10 mm
Screw:	Carriage bolt M10 with nut, St/tZn

### Connecting varieties of the Multi-clamp:

T-connection

Cross-connection

Parallel-connection

end to end-connection

Stem clamp

The original Multi-clamp was invented by J. Pröpster in 1981 and since then has been established a million times worldwide.

It is the most varied lightning protection component and the centerpiece of the multifunctional system of J. Pröpster.

### Benefits:

- Only one clamp for all types of wire connections
- Max. contact due to consistent clamping
- Extremely shortened installation time - only one screw M10
- Optimal handling at planning, acquisition and storage
